---

### 1. Training Leaders on weighing and making of enriched flour

Due to Covi-19 weighing and monitoring was done door to door in line with Ministry of Health Protocols of keeping distance and regular sanitization.

### 2. Kitchen Gardens in the communities

Above are sample pictures of continuous Kitchen Gardens in the communities – Spinach Seed Bed, Cabbages, Pumpkin leaves and Black Night Sheds

### 3. Formation of Support Groups (People Living with HIV/Aids)

Training and formation of Support Groups, V.C.T, Measles and Polio immunization given to the target families.

#### 4. Training, Management of Dairy Goats, scouting distribution and sevincing

Training, Scouting, building of Goat Pens and Distribution of the dairy goats to the target families was done. Now the goats are mating and soon we shall be having milk for the children.

### 5 and 6 Distribution of certified Seeds and Fertilizers and Kenbros in the communities

Distribution of Certified Seeds and Fertilizer, Poultry – Kenbros and Kroilers and beans harvested.

### 7. Purchases and distribution of materials for the Goat Pen

Purchase, Distribution and building of the Goat Pen in the communities.

### 8. Fodder Establishment for the Dairy Goats

Above children enjoying eating Potatoes, rich in vitamins 'A', the leaves for potatoe vines serves as fodder to the goats, Lucena. Molato and Caliandra being harvested and Nappier Grass by target families.

## 9. Maize Harvesting Season

Target Families are now in the process of harvesting, drying their maize as seen above.
